

PLEDGE TO SUPPORT SAFER ROADS AND HEALTHIER CHILDREN IN GREENVILLE COUNTY!

We're raising funds to build a safer community for our children and all the citizens of Greenville County.

There's little doubt that Greenville County roads are dangerous for pedestrians. In fact, South Carolina pedestrians sustain fatal injuries at double the national average. As Greenville County grows, and more people walk and bike our roads, that tragic statistic will surely rise.

What's more, only 20% of the county's elementary schools are walkable. That means most children can't walk or bike to school without exposing themselves to danger. And without gaining the health benefits of getting to school on their own two feet – or wheels!

Bike Walk Greenville has taken a leadership position in advocating for more sidewalks and bike lanes. Our mission is to make Greenville County a healthier, safer and more vibrant place to live. And our current fundraising goal is to raise \$35,000 for paid staff to help advance our cause. We have already secured a \$10,000 matching grant!

So, please donate and help us make our roads safer for everyone. Your contribution is tax deductible.
